

Dear Sir,
I protest the use of
public and free
airways to broadcast
slanted and biased
information. The
threat to our way of
life is multiplied
when what is placed
in front of the
public and called
news is instead
lies.

Television and radio
stations, who are
licensed by the
government, should
be held accountable
and should not
follow political
agendas.

In addition,
ownership should be
limited to a percent
of any given viewing
area so that one
company does not
have a monopoly
which can be used to
control public
opinion. Please act
to prevent the 2004
election from being
unfairly influenced
by the Sinclair
television stations.

This is an illegal
use of public
airways to give a
political party free
air time. Either
stop it or enforce
"Equal Time" .

Thank you for
accepting this
comment.
